

We are looking for a Front-End or Full-Stack Developer (m/f)

As the Belgian market leader in digital signage with offices in Deerlijk and Wommelgem, we not only develop our own Content Management System but also create numerous custom applications and smart content tailored to our clients. Under the motto "1 picture says more than 1,000 words," you can find numerous examples on our [website](#).

To strengthen our team in full growth, we want to attract a Front-End or Full-Stack Developer with at least 2 years of experience. We are seeking a motivated team player with a passion for the profession, someone who is eager to develop in their field, enjoys acquiring new skills, and is willing to take initiative. Our environment offers a lot of flexibility, allowing you to work both collaboratively and independently. If you are confident in your abilities, be sure to respond to this vacancy so we can get to know you better!

You can make a difference if:

- You enjoy working on challenging projects for prestigious clients.
- Crazy colleagues and a pleasant working environment are important to you.
- You contribute ideas from A to Z: the advantage of a SME!

You are:

- Passionate about web trends and technology.
- Organized and have attention to detail and finishing.
- A team player with a sense of responsibility.

You have knowledge of:

- JS (Typescript) Frameworks (Angular or similar).
- NodeJS.
- Docker, Git, NPM.

Nice to have:

- User Interface design skills (Sketch).
- Linux, CI/CD, Go, Python.

Ready for this challenge? We offer you a challenging job with exciting assignments within a company that is rapidly expanding. We provide an attractive salary package in a flexible environment where you can truly be yourself. Are you the one we're looking for? Then be sure to get in touch.

Additional information can be obtained from Jochen Deldaele at +32 (0)487 23 81 37. Please send your CV with a few relevant references to jochen@digitopia.be.
